WHAT IS AN IIT?

An International Intensive Training (IIT) is a Nonviolent Communication “immersion experience.” The purpose of an IIT is to live the process of Nonviolent Communication in a community setting over an extended period of time, using this as an opportunity to develop Nonviolent Communication consciousness and skills.

The format includes presentations, discussions, exercises, sharing, small groups, simulations, and informal practice during meals, walks, etc.

Informal, unpredictable, challenging, and supportive – an IIT is an opportunity to make deep connections in a safe environment , and to work and learn with Marshall and other experienced CNVC trainers.
